Hi Jenny,

Nice to (virtually) meet you! I've been coordinating with the US FWS staff who is familiar with the permit, so I have no questions at this time. We can discuss the ESA consultation process during our call next week. I'll be at a workshop on Friday next week, so Wednesday or Thursday would work best for me. Please let me know when you would like to schedule a call at your earliest convenience.

Thanks,
Emi

Hi Emi, thanks for the email. I'll be your new contact and looking forward to connecting and working with you on the permit consultation. I'm just getting up to speed on the Leavenworth permit as I transition out of my current job in the Total Maximum Daily Load program here at EPA. But feel free to give me a call if you have questions. I should know more about the permit in a couple of weeks, but am happy to talk with you beforehand about where I understand things are at. Otherwise, I'll plan on calling you late next week.

All the best,

Jenny

Hi Mike,

Thank you for updating me about your staffing situation. I look forward to hearing from you and Jenny.

Thanks,

Emi

Hi Emi. Thanks for reaching out to us. I also received your phone message yesterday afternoon. Jenny Wu of our NPDES staff will be your contact for this project. I've copied Jenny on this message so that you have her email address. Jenny, Jill and I are meeting tomorrow to discuss the overall status of the project in order to help Jenny to get up to speed and familiar with the different consultations and coordination that is underway. After that meeting Jenny and I will set up a call with you to discuss the ESA consultation effort for this NPDES permit. Thanks and we look forward to talking with you soon.

Thanks, Jill.

Hi Mike,

Is there a staff I can work with for the Leavenworth NPDES permit consultation? Because this consultation is under litigation, I would like to have a conversation with the permit writer on what our next steps are and have a plan for coordination.

Thanks,

Emi

Emi,

Thanks for reaching out about the LNFH work that the EPA is doing on the NPDES permit. The Draft Permit is currently out for public comment, until February 3rd. Michael Lidgard is the manager of the NPDES Unit in EPA Region 10 and will be assigning completion of the NPDES Permit to another permit writer, as I have moved on to another position in the Region. I wanted to make sure to put you and Mike in touch. Thanks again!

Hi Jill,

I am the biologist from NOAA Fisheries working on the Leavenworth National Fish Hatchery consultation for FWS and BOR. Dale Bambrick has told me that the EPA has also requested a consultation in issuing a NPDES permit for this hatchery and wanted to introduce myself.

My contact information is below, in the signature line. Please feel free to contact me for any questions you may have.

Thank you,

Emi
